

# RETURN OF THE RED CHEEKS

---

AN OPEN LETTER TO CHILDREN OF ALL AGES WHOSE BLOOD RUNS TO THE CHEEKS.

---

**F**or a winter thrill, there's nothing quite like sledding. No special skills are required—just a couple of firm kicks for speed and off you go. As you zoom down the hill at the speed of wind, you can feel the snow flying around you. Hold on to your hat! When you reach the bottom, just grab the string on your sled and pull it to the top of the hill again. Repeat as many times as you like.

The Pulkka is the fastest way to zoom down the hill, small or large. It offers the best entertainment without the need for recharging or updates. But it helps you recharge your batteries. It is the best winter fun for the entire family. So why not take a thermos of hot chocolate and head to the hill? Enjoy the thrill of sledding!
